Annual Meeting

Building Committee Report

The Building Committee organized the annual Spring cleaning of the Meetinghouse for the second weekend in May, 2012. Some people who couldn't make it contributed their time and energy on other days that suited them better. We had the Meetinghouse and grounds in good shape for Mother's Day.

The committee also undertook the task of putting a second coat of stain on the ramp and south stairs, as well as a first coat of stain on the front steps that were built the previous year. Many people volunteered to help with this project.

It has come to our attention that the Meetinghouse roof will need to be replaced in the near future. We have obtained one estimate from Pigeon Roofing Co. and are working on getting a second estimate.

Submitted by Claire Howard, clerk of the Building Committee
