What would John Woolman say to us today about our lifestyles and being in right relationship with all that lives?

How might we be led to change our lives for a better world?

Come and experience John Woolman's message for the 21st century through a skit prepared and presented by Louis Cox and Ruah Swennerfelt (Burlington Friends Meeting) which they performed at about 60 events on a 1,400 mile "Peace for Earth Walk," from Vancouver, BC to San Diego, CA last winter.

We'll gather for a shared meal and this provocative yet family-friendly skit! A time of reflection and discussion will follow.
